Education

Darma Yudha 2017-2020

Senior High School

School GPA : 91.28

Binus University 2020-2024 (expected)

Bachelor's degree - Cyber Security (S1)

Current GPA : 3.87

Experience *(selected)*

- Associate Member, Binus IT Division (2021-2022)

I'm placed as an intern in project team, responsible for helping programmers to provide software solutions and maintain existing projects, webapps, and/or services.

Several notable project(s) i worked on:

- KAJ BIDUK v1.16.0 - 1.25.0 (biduk.or.id)

Worked on some QoL changes, and participated in testing some to-be-released features

- IGCN (www.indonesiagcn.org)

Upgraded the landing page site at to newer version, and worked on some critical bug fixes & maintenances.

- Binus Partners Apps

Worked on some undisclosed changes for an internal app

- Junior Programmer, Binus IT Division (2022-2023)

As a junior programmer, my responsibility remains similar. I am in charge of providing software solutions, creating and maintaining APIs, webservices, and/or webapps.

Project(s) i worked on:

- DIKTI - SIAGA (siaga.kemdikbud.go.id)

Worked on multiple UI/UX redesign of the landing page and other modules (including but not limited to ticket tracking system, multiple evaluation modules, and several APIs integration).

- DIKTI - PILN (piln.kemdikbud.go.id)

I contributed to the project's app and architecture design, quality control, code reviews, and deployment.

- Programmer, Binus IT Division (2023-ongoing)

As a programmer, i am in charge of providing software solutions, creating and maintaining APIs, webservices, and/or webapps. Project(s) i worked on:

- DIKTI - SIAGA (siaga.kemdikbud.go.id)

Worked on multiple UI/UX redesign of the landing page and other modules (including but not limited to ticket tracking system, multiple evaluation modules, and several APIs integration). I also worked on security and devops improvement according to current practices and standards

Organizations/Activities *(selected)*
